

REMARKS

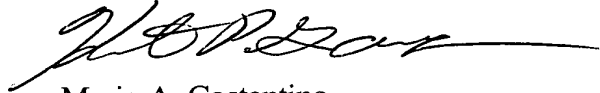

Claims 1-3, 5-9, and 11-15 are pending in this application. By this Amendment, claims 6 and 14 are amended for clarity. No new matter has been added. Applicant respectfully submits this Supplemental Amendment in the interest of furthering prosecution, for clarity, and to place the application in a condition of allowance.

Further to Applicant's March 2, 2006 Remarks, Applicant's respectfully clarify that Applicant's electronic camera as recited in claims 6 and 14 includes an enlargement instruction device that issues an instruction for enlarged display of the image that is being displayed at the display device based upon the second image data, wherein the control device performs the enlarged display of the image that is being displayed at the display device based upon the second image data, by using the first image data which have been read.

Accordingly, the second image data of claims 6 and 14 corresponds to the VGA image data and the first image data of claims 6 and 14 corresponds to the main image data (e.g., see page 22, lines 12-23 of the specification). Anderson fails to disclose these features.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,
